Our Collection

Mantels: Pages 8-49

Discover our stunning collection of fireplace mantels, expertly crafted from natural stone, marble, and timber. Available in both contemporary and traditional styles, each mantel is designed to bring timeless elegance and character to your home, creating a beautiful focal point for any living space.

Cast Iron Arched Inserts: Pages 50-59

Inspired by original Victorian designs, our cast iron arched inserts are meticulously reproduced to capture the charm and craftsmanship of the period. Suitable for gas and solid fuel fires, they are also compatible with our innovative electric insert, offering the classic appearance of cast iron with the convenience of modern electric heating.

Cast Iron Firebaskets: Pages 60-61

Our extensive collection of cast iron firebaskets combines exceptional craftsmanship with elegant design. From timeless traditional styles to sleek contemporary options, every firebasket is built from high-quality materials and is suitable for use with both gas and solid fuel fires.

Cast Iron Combinations: Page 62

Cast iron combination fireplaces are an ideal choice for smaller fireplace openings or for adding a decorative feature to any room. Offering outstanding value without compromising on style, they are available in a range of intricate designs and finishes. Suitable for gas and solid fuel fires, they can also be paired with our innovative electric insert for a traditional look with modern convenience.

NATURAL STONE & TIMBER

AEGEAN LIMESTONE

Sourced from the Eastern Mediterranean, Aegean Limestone has a distinctive creamy white colouring, speckled with tiny fossils. This consistent, fine-grained texture is what makes Aegean Limestone so unique.

This material is available made to measure.

PORTUGUESE LIMESTONE

Portuguese Limestone is quarried from various regions in Portugal. This beautiful stone is characterised by darker veining alongside fossilised plants and animal life that have accumulated over 50 million years.

This material is available made to measure.

CORINTHIAN STONE

From the Western Mediterranean, this limestone has a warm, sandy colour. Its composition is magnified with small fossils and random sedimentary veining, creating unique clusters that are sporadically distributed.

This material is available made to measure.

TIMBER

Crafted from a selection of solid natural timbers or MDF, wooden surrounds can be supplied in a variety of oiled, painted, stained or veneered finishes. Timber is incredibly durable and versatile.

This material is available made to measure.

Bespoke Service

Capital Fireplaces' manufacturing and fabrication facilities are strategically located to utilise both the most advanced manufacturing technology available and the highest quality skills.

Established long term relationships with quarries and foundries with highly efficient fabricators and stone masons, provide the backbone for the stringent quality and manufacturing standards we achieve with our collection.

We strive to offer our customers a great deal of flexibility in terms of the size of their chosen fireplace design. That's why we have implemented a Made to Measure service for a variety of our mantels in the following materials; Aegean Limestone, Corinthian Stone, Portuguese Limestone and Timber.

No matter how small or large your chimney breast, whether you'd like to change the overall size of your fireplace, make the shelf wider or reduce the rebate size, we can deliver a completely tailored service.

Simply look out for the Made to Measure logo on our mantels throughout this brochure.

GRANITE & MARBLE

PEARL GREY GRANITE

Sourced from Southern India, Pearl Grey Granite is complex and unique in its formation. There is layered depth to this granite with a dark grey base that features speckles and streaks in shades of beige and brown.

This material is available made to measure.

CARRARA MARBLE

Quarried from the Italian city of Carrara since Ancient Rome, Carrara Marble has been used in the construction of many remarkable architectural buildings. Carrara Marble has beautiful feathery veining in hues of grey and blue.

This material is not available made to measure.

CLARA PURA MARBLE

Originating from Beijing, Clara Pura is a white marble with iridescent qualities. Clara Pura can display either a slight beige or grey undertone and the unique veining varies between greys and golden beige, giving this marble a unique finish.

This material is not available made to measure.

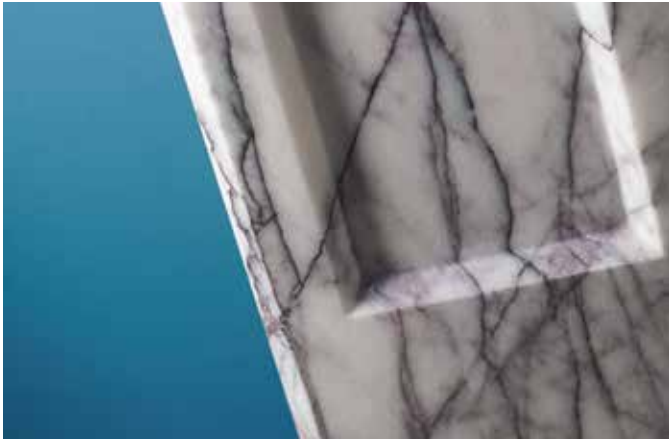

KALLOS MARBLE

Originating from Greece, Kallos marble lives up to its Greek meaning - 'beauty'. Kallos marble is characterised by its crisp white base and soft grey veins that create cloud-like wisps and shadows.

This material is not available made to measure.

GRANITE & MARBLE

LILAC MARBLE

Sourced from Turkey, this white calcite marble has a subtle grey undertone featuring black, deep violet and lilac veining. This stark contrast of colours creates a stunning visual aesthetic.

This material is not available made to measure.

NERO MARBLE

Quarried in the North of Spain, Nero marble gets its black colour from naturally-occurring bitumen. Bold white veining punctuates through the dark marble, creating a visually stunning, lightning-like pattern.

This material is not available made to measure.

BIANCO WHITE MARBLE

A timeless natural material renowned for its luminous appearance and subtle veining. With a soft white background and delicate streaks, it exudes an understated elegance – perfect for classic and contemporary fireplaces.

This material is not available made to measure.

Mantels

Capital Fireplaces is proud to offer a diverse selection of fireplace mantels to suit every taste and style of interior decor.

We understand that every home is different which is why we have developed a range of surrounds that are both attractive and versatile, seamlessly combining traditional craftsmanship and contemporary design. Crafted with meticulous attention to detail, our fireplace mantel collection is made from the finest materials that we have sourced from sustainable suppliers.

Provident High Efficiency Cast Insert

Available in Decorative or Plain style in Black or Highlight finish, the Provident consists of a back panel and fireframe. By integrating both components, we are able to create a highly efficient gas or electric fire.

The standard Provident is recommended for gas fires, and the Flat Wall Provident will allow an electric fire to be fitted in a 3" rebated mantel without needing a chimney or flue. Both options offer a much higher level of efficiency than a standard arched insert.

Cast Iron Inserts

All products (except chrome finish) are suitable for burning solid fuel, however polished and highlighted products may tarnish. Only burn small fires to start with in order to temper the cast iron. Before committing to a fireplace, please discuss your particular installation with your retailer who will provide expert advice and carry out a survey.

All dimensions are provided as a guide only and are subject to a tolerance of ± 12mm.

It is normal for tiles to craze over time.

Most fires have a remote control option, please ask your retailer.

Supplied with deeper back as standard

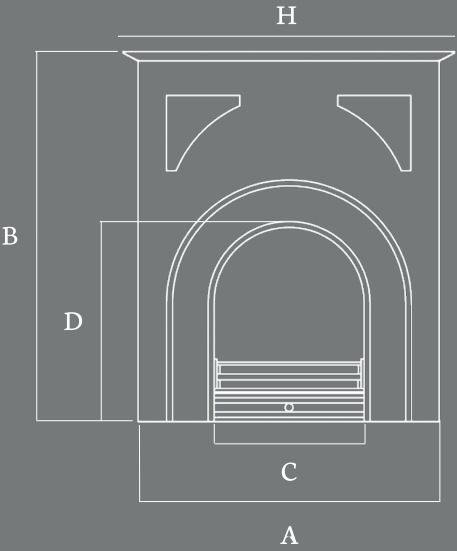

*Available with deeper back (as optional extra) for larger burning area

**415w x 560h opening (when fitted with a backplate)
